SOFTWARE KEYSETS:

Web **Application testing** on Desktop Browsers, **Database Testing**, **API Testing** (Postman). Creating/Designing **Playwright/ Selenium/ helenium** Testing Frameworks **Reporting** tools - JIRA, Allure

Programming Languages : Python And Java

EXPERIENCE SUMMARY

Accomplished and motivated software professional, proven track record in Software Field, resourceful problem-solving, communication skills. Well versed with Software Development Life Cycle, Testing life cycle, bug life cycle, Preparation and Execution of Test Cases.

- ▣ Having **3 years** of IT industry experience in Desktop and Web Application testing with a wide variety of projects and environments and Web Applications.
- ▣ **Web based applications** compatible testing on different Desktop browsers and Mobile Browsers
- ▣ Having good Experience in **SDLC** and **STLC**.
- ▣ Exposure to **Manual Testing** at all levels of STLC.
- ▣ Having good experience in **Database** Testing.
- ▣ Having test experience **API Testing**.
- ▣ Involved in **Requirement Analysis, Test Scenario creation, Test case creation, Test execution and Test Summary Preparation** and Review process.
- ▣ Involved in execution of **Sanity, Functional, System, Integration, and Regression** Testing.
- ▣ Daily interactions with onsite clients from UK and Chennai teams
- ▣ Experience with **Agile** software development (**scrum**)
- ▣ Good interpersonal skills and Demonstrated ability to work as team member as well as independently, professional demeanor and a fast learner of new technologies, willing to take up responsibilities.
- ▣ Certified '**ISTQB**' Tester, Cleared the Examinations conducted by Reputed ITB (**Indian Testing Board**)
- ▣ Hands-on experience with the **Robot Framework and Pytest** in writing and executing test cases

ACADEMICS:

Bachelor of Engineering in **Electronics and Telecommunication**, From **Dhole Patil College of Engineering**.(Pune University)

- ▣ Diploma In **Electronics and Telecommunication**, From **NBS Poly Latur**.(Mumbai State Board of Technical Education)

WORK HISTORY:

- ☐ Worked as a **Product Testing Engineer** in **Macfos PVT LTD, Pune** from **'September 2018'** to **'November 2021'**
- ☐ Worked as a **Senior Product Testing Engineer** in **Macfos PVT LTD, Pune** from **' November 2021'** to **'February 2022'**.
- ☐ Currently working as **Software Development Engineer In Test(SDET)** in **SpurQlabs Technologies** from **'March 2022'**.

PROJECT DETAILS:

Company : SpueQlab Technologies Pvt Ltd.

Project Name : Web and Desktop Bio-Pharmaceutical Application Testing (Can't share the name.)

Duration : March 2021 to till date

Role : **Software Development Engineer In Test**

Description:The primary goal of this app (Bio-Pharmaceutical Application) was to collect data from the user and generate reports based on the information provided. There were several interlinked pages, which means that the data on one page was dependent on the data on another. Our task was to create test cases for each module and perform functionality and integration testing.

Responsibilities:

- ☐ Responsible for gathering and discussing the requirements with UK and chennai based clients
- ☐ Understood and analyzed Business, Functional, Technical requirements of the project/release.
- ☐ Analysis of functionalities/enhancement from SRS and Design.
- ☐ Responsible for interacting with design team and developers to gather required information about app.
- ☐ Prepared Test Scenarios and Test Cases after understanding all the project requirements for every release.
- ☐ Performed Functional testing, Integration testing, System testing, Regression testing.
- ☐ Executed the Test Cases and analyzed the Results.
- ☐ Defect Reporting and Tracking done using 'Jira'
- ☐ Actively participated in Sprint Planning and Grooming.
- ☐ Responsible for transferring knowledge to all new team members.
- ☐ Responsible for regular interaction with clients to update the test status

PROJECT DETAILS

Company : SpueQlab Technologies Pvt Ltd.

Project Name Bio-Pharmaceutical Application(WEB)

Duration : March 2021 to till date

Role : **Software Development Engineer In Test**

Project Name : Digital Version of Desktop Application

Description: This was a Web Based application which was exact replica of the Desktop Based Application.

Responsibilities:

- Reviewing the Test Cases/ Test scenario document and designed Plawright Framework on my own.
 - Understanding the requirement & functional specifications, creating test cases, undertaking execution of test cases to check the functional behaviors of the Application.
- Done functionality, backend, database and regression testing and API testing for the whole project.
- Tracking the bugs and reporting using Jira Reports.

PROJECT DETAILS

Personal : Designing Automation Frameworks Using Playwright and Selenium

Role : **Software Development Engineer In Test**

Description: I designed selenium automation framework using python and java programming language.

Responsibilities:

- I designed two automation frameworks using Python and java programming lanaguage.
- Both frameworks were able test the **web applications** and generate the reports. (**Cucumber and Allure**) reports
- Both frameworks were cable of doing **API testing**

PERSONAL PROFILE

Hobbies:

Reading novels, Travelling, exploring new food items and Places, listening to music.

Languages Known:

English, Hindi, Kannada, and Marathi.

Declaration:

I hereby declare that the above written particulars are true to the best of my knowledge and belief.

Date:

Location: Pune
